

External Sport Programs

(correct as at 26.07.2022, subject to change)

The school encourages students to get a skill foundation and exposure in a variety of sports before starting competitive games in sport-specific school teams. All students can participate in external sport programs at the school or around the community which range from fundamental movement skill programs to school holiday clinics to structured sport-specific skill programs. These develop confidence, teamwork, new friendships and social skills.

Parents/caregivers are encouraged to spend time with their child at home developing sport skills. You don't have to be an expert. Provide opportunities for the child to play.

Below is a non-exhaustive list of options that students and parents can access.

Contact the relevant person or company with any questions or to register.
